Dear Ted:

This is to put in writing what we discussed a couple of days ago:

The LRH Biography will be going ahead very soon. I expect that Omar Garrison will begin work in the next week or two.

Part of the biography, since it is a major work, will include photos of LRH. These will be from every period of his life, of course, not just the PR photos which currently have IA.

Garrison has seen the photo inventory which I sent to you some time back, and was very pleased with our having so many photos from which to choose.

He will have to, within the next few months, go through the photos which he feels are possible for the book, view them and choose what he wants to use.

It should be noted that R has the ultimate say on everything which goes into the book, including the photos, so there is no problem as to what Garrison chooses or sees.

But the thing to keep in mind is that Garrison will have to go through the PT inventory which Carmen is preparing, and will then have to go through the photos.

Please let Carmen know and any of your seniors on this line.

Much love,

Gerry
